

MODEL 115A

Air-Operated Hot Stamping Machine

The Model 115A Air Operated Hot Stamping Machine is a versatile bench top machine capable of stamping many plastic items, vinyl items, medical products, pressure sensitive labeling materials, and can be equipped to do consecutive numbering.

The Model 115A is actuated by two-hand consecutive non-repeat switches and is manufactured with a double ended air cylinder for precision depth stop control, a solid state dwell timer with micro-second adjustment, air filter, lubricator and pressure regulator.

The Model 115A is the ideal semi-automatic hot stamping machine for short or long production runs. The Model 115A comes equipped with a tilt lock heater head for easy insertion and removal of type and dies. When required the Model 115A can be equipped with special heater heads for high speed industrial applications.

Franklin will recommend the proper air compressor.

Choose From A Wide Selection Of Typestyles, Emblems, And Party Dies

FRANKLIN offers a wide selection of *typefaces* in brass, steel, or hard metal as well as *dies*. Contact Franklin *Customer Service* for more information.

Features

1. Power On Light & Temperature Indicating Light
2. Foil Advance Control to Adjust Pull Length.
3. Foil Rewind Assembly for Take-up of Used Foil.*
4. Squaring Gauge and Side Stops for Accurate Positioning of Items Being Imprinted
5. Sliding Work Table and Stop for Easy Set-Up
6. Precise Thermostatic Heat Control Knob
7. Tiltable Type and Die Holder.
8. Self-Centering Jaws
9. Heat Indicating Thermometer
10. Automatic Leaf Pull with Spacer Blocks for Positioning up to 2.5" Wide Foil

*Optional

Model 115A Specifications

Imprint Area:
2"x6-1/4"

Throat Depth:
9"

Clearance Under Head:
2-5/8" (Additional clearance up to 8 5/8" with use of spacer kits. Ask Franklin for details.)

Wattage:
500

Voltage:
120V standard. 220V available.

Temperature Range:
0-400° F

Air Consumption Per Stroke:
.047 cu. ft.

Minimum Pressure:
60 psi

Power Factor:
8

Dimensions:
33"H x 21-1/2"W x 18"L

Packaged Dimensions
36"H x 24"W x 24"L

Net Weight:
129 lbs.

Shipping Weight:
150 lbs.
